

## Get Out and Play!

YOU'VE RECORDED USING YOUR DVD-VR CAMERA OR RECORDER. SO NOW WHAT?

### View your DVD-VR recorded footage with HEURIS' DVD ConnexIT.®

With HEURIS' DVD ConnexIT® you can shoot and view your footage with no cables and no hassles! Just pop the disc out of your camera or recorder and into your Mac and view the footage in QuickTime MoviePlayer. It really is that simple!

### Edit your DVD-VR footage with your favorite QuickTime NLE.

Not only can you view the footage in QuickTime MoviePlayer, but you can edit the footage in Final Cut Pro or other QuickTime editing system! Just pop your disc out of your camera or player/recorder and into your DVD Multi drive.

Digital playback and nonlinear editing without capture hardware, firewire cables, or huge storage drives!

### Just pop the disc in and START EDITING!

HEURIS' DVD ConnexIT® is a powerful new plug-in that allows you to instantly read video files from a DVD-VR disc in Apple Final Cut Pro, QuickTime Movie Player, and other QuickTime applications. Now you can move quickly and easily from a DVD camera or DVD Recorder to NLE in just a few simple steps:

**RECORD** with a DVD Camera or DVD Recorder.

**VIEW** the video instantly in QuickTime Movie Player or Apple Final Cut Pro with HEURIS' DVD ConnexIT®.

**EDIT** and add special effects using Final Cut Pro.

**WRITE** your edited content to any format available in Final Cut Pro.
